

Ava is a digital health company with the aim to revolutionize women's health. The company is headquartered in Zurich, Switzerland with offices in San Francisco and Hong Kong and partner offices in Belgrade and Makati. Our wearable device, smart app and proprietary predictive algorithms empower women by giving them unique clinically researched insights and personalized data about their menstrual cycle, fertile window, and pregnancy delivered in a way that's convenient and non-invasive. Ava is a global, award-winning brand with strong social network communities. Our current key markets include USA, Canada, Germany, Switzerland, Spain, UK, and Hong Kong.

Would you like to join us on our challenging adventure? For our local partner in Belgrade, **Holycode D.O.O**, who employs our software engineering team, we are looking for a:

## Android Developer

Location: Belgrade with regular travel to our office in Zurich, Switzerland

### Responsibilities:

- Implement new features for our Android app and contribute to the existing Android team
- Take ownership of specific feature implementations and produce structured, easy to read and efficient code
- Write unit tests and verify your code against defined test cases
- Participate in code review meetings and ensure timely delivery of high-quality code
- Discuss possible implementations with lead developers and contribute to the overall design and architecture of our app
- Estimate development efforts and do sprint planning together with the team
- Keep track of your work and make sure to follow Ava's development process
- Plan releases together with the team and support the release of our app on the Play Store

### About you:

- Bachelor's or Master's degree in computer science, electrical engineering or a related field
- 1-5 years' working experience as an Android developer
- Good knowledge about software design patterns, data structures and algorithms
- Understanding of software development lifecycles in a regulated industry with experience in medical device software development is a big plus
- Willingness to work flexibly, in an interdisciplinary and international environment, depending on the current project status
- Strong analytical skills and process-oriented work style with a structured, independent approach to work and focus on getting things done
- Stress-resistant, even in fast-paced and busy situations
- Fluency in English (German and other European languages are a plus) and willingness to travel (up to 30%)

Would you like to contribute to a highly motivated team, with a lot of space for your own initiatives? If yes, please apply online or send your complete application to [recruiting@avawomen.com](mailto:recruiting@avawomen.com).

We appreciate that you share our excitement for Ava. Please be aware that only fully documented applications (CV, motivation letter and supporting documents) can be considered.

### Ava – Revolutionizing women's health

Dejan Vukmirovic, Engineering Manager

*Should you not hear back from us within 3 weeks your application has unfortunately not been successful for the respective role.*
