Ava is a digital health company with offices in Zurich, San Francisco, Belgrade and Makati that aims to advance women's reproductive health by bringing together artificial intelligence and clinical research. Our wearable device, smart app and proprietary predictive algorithms empower women by giving them unique clinically researched insights and personalized data about their menstrual cycle, fertile window, and pregnancy delivered in a way that's convenient and non-invasive. Ava was voted Best of Baby Tech at CES 2017, named a Women's Health "Editors' Choice" product and has been honoured as the best Swiss startup in 2017 and 2018. Our current key markets include USA, Germany, Switzerland and UK.

Would you like to join us on our challenging adventure? To strengthen our team, we are looking for a:

Clinical Researcher (80-100%)

Location: Zurich, Switzerland

Responsibilities:

- Develop clinical trials in women's health from A to Z (e.g. trial design, statistical analysis plan, clinical documentation, CRO appraisal and selection, recruitment planning, monitoring, close out, etc.)
- Drive clinical development deliverables (e.g., CEP, CIP, CER etc.) and the cross-functional interaction to reach them
- Think inside and outside of the box to bring novel ideas to fruition and help patent them
- Represent Ava globally in scientific events and conferences
- Synthesize scientific knowledge for internal and external use (e.g. marketing, regulatory filings)

About you:

- PhD or M.Sc. degree in life sciences, medicine, epidemiology or biology
- Minimum 2 years' work experience in the clinical or medical field, more if you don't hold a PhD
- Relevant experience in and/or knowledge of at least half of the areas below (by order of importance):
    - Managing and conducting Phase I-IV clinical trials according to GCP
    - Managing CROs from the sponsor side
    - Managing projects in clinical/medical settings
    - Writing clinical regulatory documentations (e.g., CEP, CIP, CER)
    - Submitting regulatory filings for FDA and European body
    - Establishing clinical quality management systems (e.g., SOPs, FOs, WI writing)
    - Managing clinical data sets with tools such as EDC including ePRO
    - Prior exposure to the medical devices or software as medical devices industry
    - Prior exposure to women's health, fertility or endocrinology
    - General statistical and quantitative understanding in the clinical or medical field
    - Knowledge of local Swiss and German clinical trial regulation
    - Familiarity with clinical trial software (e.g., CTMS, eTMF, IWRS)
- GCP certification or equivalent with a good understanding of ICH GCP or ISO 14155
- Fluency in English with proven English writing skills (e.g., previous successful submission or papers)
- Swiss or EU/EFTA work permit

Would you like to contribute to a highly motivated team, with a lot of space for your own initiatives? If yes, please apply online or send your complete application to **recruiting@avawomen.com**.

We appreciate that you share our excitement for Ava. Please be aware that only fully documented applications (CV, a 150 max words motivation letter) can be considered.

Ava – Revolutionizing women's health
Mohaned Shilaih, Director Clinical Development

Should you not hear back from us within 3 weeks your application has unfortunately not been successful for the respective role.
